MAHA KUMBH MELA

- Maha Kumbh Mela - occurs every 144 years, only in Allahabad.
- Kumbh Mela is celebrated at different locations depending on the position of the planet of Brhaspati (Jupiter) and the sun.
- When Jupiter and the sun are in the zodiac sign Leo (Simha Rashi) it is held in Trimbakeshwar, Nashik.
- When the sun is in Aries (Mesha Rashi) it is celebrated at Haridwar
- When Jupiter is in Taurus (Vrishabha Rashi) and the sun is in Capricorn (Makar Rashi) Kumbha Mela is celebrated at Prayag.
- and Jupiter and the sun are in Scorpio (Vrishchik Rashi) the Mela is celebrated at Ujjain.
- Each site's celebration dates are calculated in advance according to a special combination of zodiacal positions of Sun, Moon, and Jupiter.

Calamities at the Kumbh Mela

- It was reported that up to February 5 2012, the total number of lost and found were 120,000 .
- These Old people suffer from:
- Severe Depression
- High BP and Diabetes
- Cataracts and Ophthalmic diseases
- Arthritis
- Oxygen deficiency medical symptoms include: stomach acid, bacterial, viral, parasitic infection, bronchial, chronic hostility, circulation problems. Also depression, dizziness, fatigue, irrational behavior, irritation, lowered immunity to colds, flu and infections, memory loss, muscle aches, overall bodily weakness, poor digestion, tumors, deposit buildups

Statistics of Kumbh Mela

People at Kumbh Mela in need of Medical Aid

DNA Gene Therapy- How it works?

Mana is a DNA activator – proven to create ‘fetal’ DNA (healthiest DNA that a person was born with)

When Mana & Plasma are mixed within the first second healthy DNA strands start amplifying (proven through research)

It ‘s the patients own DNA being given back : NO SIDE EFFECTS
